Subject: RE: AE workshops

I would envision that the State would provide an overview of their process – to include the following, but not limited to:

Scoping meeting with the operator(s) on the proposed exemption request

Elements of the proposed AE request

How the state will review the package, including the interface between DOGGR and the Water Board on the current use/future use analysis

Public review process

Submittal to EPA

We will have to get their thoughts as well but we are only at the beginning stages of telling them their will be a workgroup. And yes, a Q&A session

Hi Michele,

I am summarizing my notes from our call last week to get Holly's approval to move forward! Do you have a few sentences to describe the state presentation piece? Or would this be a more free-form discussion with state and owner/operators? For example a Q&A session.

Thanks,

Lisa
